ACADEMIC DETAILS

Year	Degree/Exam	Institute	GPA/Marks(%)
Aug, 2023 - present	B.TECH in Computer Science	Graphic Era Hill University Dehradun	7.10/10.00
2022	C.B.S.E	Jawahar Navodaya Vidyalaya Rudraprayag	76.60 %
2020	C.B.S.E	Jawahar Navodaya Vidyalaya Rudraprayag	92.60 %

WORK EXPERIENCE

- **Freelance Web Developer — Bhuyogmantra (2025):** Developed a complete end-to-end business website for the client, including responsive frontend design, backend integration, and deployment. Built the project independently from scratch according to client requirements. **Live Project:** <https://bhuyogmantra.com>

INTERSHIPS

- **Machine Learning Intern, Alpha Innovation Pvt. Ltd., Bengaluru (Oct 2025 – Dec 2025):** Completed an online internship in the field of Machine Learning, where I worked on building and understanding ML models, data preprocessing techniques, and basic model evaluation methods. Gained hands-on experience with Python-based ML libraries.

PROJECTS

- **Braille Bridge** (October, 2025 - November, 2025) : Developed an AI-powered accessibility platform that converts voice to Braille and Braille to voice with multilingual support and can be accessed just by voice commands. Implemented voice-controlled operations using the Web Speech API and integrated Cloud Text-to-Speech (CTTS) for real-time audio playback of stored records—enhancing accessibility for visually impaired users.
- **AI Generated Voice Detector (March, 2025 - May, 2025)** : Developed a machine learning-based system to detect AI-generated and deepfake voices using Python. Extracted audio features such as MFCCs and spectral patterns, and trained classification models to distinguish between real and synthetic speech, achieving high detection accuracy on test datasets.
- **Distributed Mini File System (Apr, 2025 - June, 2025)** : Developed a distributed file system prototype using Java, enabling efficient storage and retrieval of files across multiple nodes. Implemented file chunking, replication, and fault tolerance mechanisms to ensure reliability and scalability, along with basic client-server communication for file operations.

SKILLS

- **Programming Languages-** Python , C (Moderate), Javascript (Beginner),Java.
- **Frontend-** ReactJs, Tailwind CSS, Bootstrap, HTML, CSS.
- **Backend & Databases-** Node.js, Flask, MySQL, Oracle.
- **Machine Learning Tools-** NumPy, Pandas, scikit-learn, TensorFlow.
- **Soft Skills-** Professional Communication, Analytical thinking, Time management.

ACHIEVEMENTS

- **Finalist, Saarthi'25 – 24-Hour National Level Hackathon:** Presented “Braille Bridge”, an assistive platform designed for specially-abled individuals to enhance accessibility and communication.

CERTIFICATES

- **Foundation of Google Cloud Computing (NPTEL):** (Feb.-April 2025).
- **Data Analytics with Python (NPTEL):** (July-Sept. 2024).
